Safety

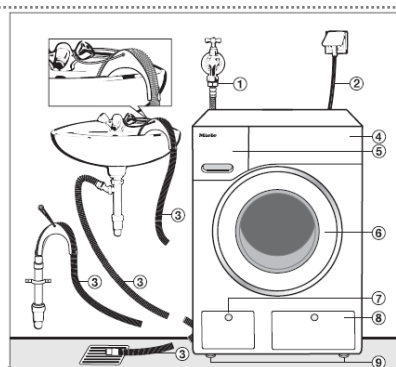

- Water Proof Metal, Lock code and Child safety door lock

Consumption

- Water: 65 litres / Energy: 0.9 kWh per wash cycle according to EU Regulation No. 2019/2014

Energy efficiency

- HK Energy Energy efficiency: Grade 1
- EU Energy efficiency : A / Spin efficiency: A

- ① Water inlet hose (waterproof metal, braided)
- ② Electrical connection
- ③ Flexible drain hose (with detachable elbow)
- ④ Control panel
- ⑤ Detergent drawer
- ⑥ Door
- ⑦ Access to drain filters, drain pump and emergency release
- ⑧ Access panel for TwinDos containers
- ⑨ 4 height-adjustable feet

Installation requirements

- Voltage & Rated load: 220-240V, 2.1-2.4 kW
- Fuse rating: 13 A
- Connections required: Electrical supply, water supply, drain
- Water inlet hose: 1.55 m with 3/4" threaded union
- Drain hose: 1.5 m, internal Ø 1 1/2"
- Drain hose connection to standpipe, max. 1m from floor level
- Length of connection cable: 2.0 m
- Socket position: DO NOT POSITION BEHIND THE APPLIANCE

Dimensions

Height:	850 mm
Built-under height:	850 mm
Width:	596 mm
Depth:	714 mm
Depth with door open:	1132 mm
Net weight:	approx. 102 kg
